Frustrating

Day Of Fire

Everything you say is so
So predictable and small
I don't want to hear you
Every conversation costs
Too much time that I have lost
Just by standing near you
When it gets so frustrating
I just sing your song
Inside my head
It gets so complicated
I just sing your song
Inside my head
Everyone seems so sincere
Manipulated by the fear
Of this situation
When it gets so frustrating
I just sing your song
Inside my head
It gets so complicated
I just sing your song
Inside my head
When it gets so frustrating
I just sing your song
Inside my head
It gets so complicated
I just sing your song
Inside my head, my head
And it's time and time again
And it's all that I can stand
When it gets so frustrating
I just sing your song
Inside my head
It gets so complicated
I just sing your song
Inside my head
When it gets so frustrating
I just sing your song
Inside my head
It gets so complicated

I just sing your song
Inside my head, my head
