The beat, the beat, the beat

Rockin' to the beat, rockin' to the beat  
Rockin' to the beatKeep comin' in with the disco jam  
Step in the place and people like, damn  
Party get started with a cool and the fam  
Gotta get naughty and do all I canWhat is band that can't really rock?  
What's an M.C. that's rockin' the spot?  
What is a mic that ain't got no cable?  
What's a DJ without the turntable?What's a hot girl if she can't really dance?  
What's electro without wearing tight pants?  
What is a rhythm if it just don't bump?  
Baby, let me get it and give you what you wantGive you what you need, baby, how you want it?  
Time to get nasty, get your ass on it  
Time to get on it, on it, on it  
Time to get on itRockin' to the beat, rockin' to the beat  
Rockin' to the beat, rockin' to the beat
