

Sacred Place

Victor Wooten

I'm goin' to a place, thoughts can't follow me
Down to a quiet place where my mind is free
Free from all suffering, free from my own name
And when I'm there I know we are all the same
I'm goin' to a place older than the sun
Darkness within itself, where we all come from
Death has no power here love is all there is
Darkness within itself, do you remember this
Remember, remember it has always been
The kingdom, the kingdom of God lies within
Oh, to the center, beyond time and space
God I found a sacred place, everybody's got a sacred place
God I found a sacred place, everybody's got a sacred place
I'm goin' to a place, I know it by heart
And then I'll know it will never be apart
Words do not matter here, time is just a friend
Light shining from itself, light without end
Remember, remember it has always been
The kingdom, the kingdom of God lies within
Oh, to the center, beyond time and space
God I found a sacred place, everybody's got a sacred place
God I found a sacred place, everybody's got a sacred place
God I found a sacred place, everybody's got a sacred place
God I found a sacred place, everybody's got a sacred place
Yeah, yeah, yeah, yeah, yeah, yeah, yeah, yeah
I saw a photograph of a speeding train
And when it leaves I'll know, now it will remain
A candle is burning bright here beside my bed
Thank you for teaching me [Incomprehensible]
