Street Corner Talking

Savoy Brown

Came to the city, left my happy home
Came to the city, left my happy home
But I didn't do right, learned my lessons wrongStreet corner talking, wonder what I'm gonna do?
Street corner talking, wonder what I'm gonna do?
If you can't get a job, council will take care of youIt's the same, what a shame, no matter where you go
It's the same, what a shame, no matter where you go
People wonder what to do, too much time for me and youStreet corner talking, wonder what I'm gonna do?
Street corner talking, wonder what I'm gonna do?
If you can't get a job, council will take care of you
