Believe In Me

The Lamplighters

It's a reflection that you see in me,
But I know it's not reality
Beneath the glitter and behind all the lace, do you see my face?
I'll be the mirror, the spaces in between,
It's not the truth, it's just a dream,
I guess we all have to believe in something, in anything.
Do you love me ?
Just the way I am
Do you need me ?
Will you take a chance ?
Do you see me, for all that I can be ?
Do you believe ?
Live in me
Sometimes you need to be lost just to be found,
You need to go to come back around
You need to set somebody free for them to return.
You live and learn
Do you love me ?
Just the way I am
Do you need me ?
Will you take a chance

Do you see me for all that I can be ?
Do you believe ?
Live in me
I've heard it said that true love is blind,
Or this is just a state of mind
If you're not looking, you will never find,
You'll be left behind
Do you love me ?
Just the way I am
Do you need me ?
Will you take my hand?
Maybe you'll see through the mystery
Do you believe ?
Do you love me ?
Just the way I am
Do you need me ?
Will you take a chance ?

Maybe you'll see all that I can be ?
Do you believe ?
Live in me
