

Suicide By My Side

Sinergy

Living everyday through this nightmare
No signs of waking up
Surrounded by my fear and frustration
Paralyzed here I stand So I surrender now and give up on myself
Been sinking for so long, I'm one to deep now
How much more can I bear? Seems no one even cares
I'm drowning in a sea of desperation Suicide the comfort that I crave
Kill me now and send me to my grave
Suicide you're listening to me
Let me die and finally be free Suicide salvation from my pain
My demise humanity to blame
Suicide my life is in your hands
Suicide stay by my side I've tried over and over again
Still you see, I can't hang on
Hopelessly I lie and wait for redemption
As I slowly drift away Drink of the poison now and take my final bow
Don't know what lies ahead I'll take that chance though
For all that I've been through don't know what else to do
(I kiss my life goodbye so hear my last words) Suicide the comfort that I crave
Kill me now and send me to my grave
Suicide you're listening to me
Let me die and finally be free Suicide salvation from my pain
My demise humanity to blame
Suicide my life is in your hands
Suicide stay by my side Suicide
Be my guide
Embrace me now
So I can die Suicide the comfort that I crave
Kill me now and send me to my grave
Suicide you're listening to me
Let me die and finally be free Suicide salvation from my pain
My demise humanity to blame
Suicide my life is in your hands
Suicide stay by my side By my side
End my life
