Let The Sun Shine In

[Steve Holy](#)

You can be heartbroken
And that just make you humble
You can scream out loud a name girl
And that just makes you honest
You can cry all night if you want to
And that just makes you human
You may let it drive you crazy
And that just makes you normal

One day lookin' back
On the battles that you fought and didn't win
You may find deep inside
A part of you that's never gonna mend
Just remember it's the cracks in your heart
That let the sun shine in

You can pick yourself back up
That just makes you tougher
You can go back out tomorrow
That just makes you braver
Being left without the answers
That just makes you wiser
Another taste of that injustice
Can only make you kinder

One day lookin' back
On the battles that you fought and didn't win
You may find deep inside
A part of you that's never gonna mend
Just remember it's the cracks in your heart
That let the sun shine in
Let the sun shine in

Let is shine
Let it shine
Let it shine
Let the sun shine in

Let is shine
Let it shine

Let it shine
Let the sun shine in

Go back out tomorrow
You can cry all night if you want to
But let it shine
