

River (Robert Babicz Remix)

Phonique

I've been waiting for you for what seemed like a really long time

For a second

For a minute

For an hour

For a day

For a month

For a year

I knew you were gonna come back to me

To the exact spot where we first met

In a river

In my cunt

I'm sopping wet

Let's fuck on the top of this fountain

Splashing the waters of hydrochloric acid into my nostrils

Let's fuck on the top of this fountain

I've been waiting for you for what seemed like a really long time

For a second

For an hour

I knew you were gonna come back to me
