

# Spiral of Winter Ghosts

## Sadist

here they are again  
taken by an icy wind  
they gently take place beside me  
winter days ... once again  
winter nights ... as it's always been  
winter days ... this is my time  
winter nights ... as it's always been  
feel the cold, see the frost  
forgotten in my brain  
can you see the winter ghost?  
coming thru' the rain  
winter! (x2)  
here they are again  
eager for my essence  
warriors, bearers of peace  
sinners and saints dressed in innocence  
winter days ... this is my time  
winter nights ... let 'em come to me  
winter days ... once again  
winter nights ... let 'em come to me  
repeat 1st verse  
i am so scared ...  
there's no disguise!  
the spiral of winter  
do you think it's enough  
to close a door?  
the spiral of winter  
to leave behind what is now!  
winter! (x2)
