

What Do You Really Think?

Survivor

Do you love me? Tell me if it's true
Does that look of love reflect the real you?
Why does passion disappear when we're apart
Are you secretly breaking my heart? What do you really think?
What do you really think of me?
What do you really think?
What do you really think 'bout me? We were dreamers, rebels in our youth
Did our fantasies, obscure the bitter truth
Why do you turn your head when those boys walk by?
Try looking me straight in the eye What do you really think?
What do you really think of me?
What do you really think?
What do you really think 'bout me?
About me, I gotta know Ooh, can I reach you, is it worth the climb?
Let me teach you what's the bottom line
Shall we try again some other place and time, in time? Must every passing day be so tough, girl
Are you secretly breaking us up, girl
I wanna know, I gotta know for sure, I wanna know Do you love me? Tell me if it's true
Does that look of love reflect your point of view?
Why does passion disappear when we're apart?
Are you secretly breaking my heart? What do you really think?
What do you really think of me?
What do you really think?
What do you really think about me? What do you really think?
What do you really think of me?
What do you really think?
What do you really think about me?
About me, I gotta know, about me
What do you think about me?
