Elevator Action

Fireside

I'm just running around
It's so hard to be on time
I keep falling down
Nothing left for me to find
But when she comes around
Then it feels a little better for a whileSometimes I dream that you're alive
Sometimes I dream that you're still here, that you're aliveYou're evil now
Well what was that all about
Not a sign
Not a word and then goodbye
But then she comes around
And it feels a little better for a whileSometimes I dream that you're still here, that you're alive
