I Wish It Would Rain

Randy Travis

It's the last thing I needed
On a star-filled night
The one who broke my heart
Comin' into sight
Walkin' hand-in-hand with the one who holds her now
I feel the hurt returning and if only somehowI wish it would rain
I wish it would rain
Oh, Lord
So she won't see
What she's doing to me
Come on, now, sky
Be a friend to these eyes
And I know that I
Can't hold back the pain
I wish it would rainIt's been too long now
To hurt me so bad
But the love that we shared
Was the best that I've had
And my tear drops will fall when they go walkin by
There's no place to turn
And no place to hideI wish it would rain
I wish it would rain
Oh, Lord
So she won't see
What she's doing to me
Come on, now, sky
Be a friend to these eyes
And I know that I
Can't hold back the pain
I wish it would rain
