Never Wanna Let You Go

[Megan Nicole](#)

Quit playing games, don't lead me on
Make me feel, like I'm your one
When you're gonna let me goWhy won't you give me a chance
To show you every side of me
And how we're meant to be'Cause you're too scared to let me in
Let this love beginNever wanna let you go, never wanna be alone
Tell me how it ought to be right now
Never wanna leave your side, never wanna say goodbye
Tell me how it ought to be right nowI see the way you look at her
The way you used to look at me
Now I can finally seeBroken hearts and broken dreams
There will never be a you and me
Can't find the air to breathe'Cause you're too scared to let me in
Let this love beginNever wanna let you go, never wanna be alone
Tell me how it ought to be right now
Never wanna leave your side, never wanna say goodbye
Tell me how it ought to be right now'Cause I'm falling, do you still care?
'Cause I'm falling, will you be there?Never wanna let you go, never wanna be alone
Tell me how it ought to be right now
Never wanna leave your side, never wanna say goodbye
Tell me how it ought to be right nowNever wanna let you go, never wanna be alone
Tell me how it ought to be right now
Never wanna leave your side, never wanna say goodbye
Tell me how it ought to be
Tell me how it ought to be right now
