

# High Up Above

Weezer

Tonight you're mine  
Though your fair face I can't find  
I need your love  
Though you leave me far behind I really miss your love  
When you're high up above  
And I am waiting here  
Alone and by myself Tonight you're free  
And the experts will agree  
When a girl is pure  
There's no better place to be I really miss your love  
When you're high up above  
And I am waiting here  
Alone and by myself, ah... I really miss your love  
When you're high up above  
And I am waiting here  
Alone and by myself, ah... Tonight you're free  
And the experts will agree  
Will agree...
