

Desert Rain (Alex Addea Remix)

Edward Maya

I've missed you so much now I'm whole again
Come, come tonight
Just hold me tight
This desert rain you're my guiding light We, We were close
This world of pain
I've missed you so much now I'm whole again
Come, come tonight
Just hold me tight
This desert rain you're my guiding light We, we were lost
This world of time
We forgot about love, We forgot about us
Now I am here
Dreams become real I feel like a sand that's blown away
back into the storm
I'm inside this dream
That feels just like a desert rain
