

Sentimental

Donna Summer

Last night, you showed how much we cared
But sadness filled the air
How it made me cry when we waved goodbye
Then you left me standing there
Last night, I came home on my own
Watched a movie show
And the saddest part really broke my heart
As it made me miss you so I get so sentimental
Can't control the beat of my heart
I get so sentimental
Sentimental when we're apart
Last night, I tried to let you know
How it hurts to see you go
And how I want you near every time I hear
Our love song on the radio
I get so sentimental
Can't control the beat of my heart
I get so sentimental
Sentimental when we're apart
Can't control the beat of my heart
I get so sentimental
Sentimental when we're apart
How it made me cry
When we waved goodbye
As it made me miss you so I get so sentimental
Can't control the beat of my heart
I get so sentimental
Sentimental when we're apart
I get so sentimental
I get so sentimental
Sentimental when we're apart
I get so sentimental
Can't control the beat of my heart
I get so sentimental
