At Least We're Dreaming

Eve 6

When do we get to the part where I can go home,
been hiding inside the jungle gym for way too long
wiatin for someone to come along and find me
live in an apartment that bums me out
it don't get better when the lights go out
wiatin for someone to come along and find me
swimin through the isles at the grocery store
I don't even know what I'm lookin for
wiatin for someone to come along and find me
at least I'm breathin
at least I'm alive
as long as I'm dreamin
everythings gonna be alright
to the corner to call collect
your mother wants to know are you happy yet
wiatin for someone to come along and find you
goin out at night lookin for distractions
sleepin through the day there's no redemption

wiatin for someone to come along and find you
at least I'm breathin
at least I'm alive
as long as I'm dreamin
everythings gonna be alright
I'm alright, I tell myself twice
in the mirror before I can't go to sleep at night
I need a lullaby I need some time
I need to get a dime bag from my guy [x2]
at least I'm breathin
at least I'm alive
as long as I'm dreamin
everythings gonna be alright
I'm alright, I tell myself twice
in the mirror before I can't go to sleep at night
I need a lullaby I need some time
I need to get a dime bag from my guy [x2]
