

Camouflage

Plus One

What is this force around me
Just like a tractor beam that is always holding me down
And whenever I get the chance to
To spill my guts about you, it tries to tape up my mouth
What good am I if I just keep you quiet?
What good am I if I don't speak?'Cause I don't wanna be camouflage, what I'm not
'Cause what I've got invades the world
I don't wanna be in a box
All I want is just to stop being camouflage
I'm sick of tryin' to blend
Thinkin' that I should fit in like I am somebody else
Why do I go against what I say
And come across like a fake and keep you all to myself?
It's not that I wanna shove it on somebody
It's just that I, that I can't hide
I don't wanna be camouflage, what I'm not
'Cause what I've got invades the world
I don't wanna be in a box
All I want is just to stop being camouflage
I can't hide, on I, yeah
Don't put me in a box
'Cause I don't wanna be camouflage, what I'm not
'Cause what I've got invades the world
I don't wanna be in a box
All I want is just to stop being
'Cause I don't wanna be camouflage, what I'm not
'Cause what I've got invades the world
I don't wanna be in a box
All I want is just to stop being camouflage
