

Warm In December

Seth MacFarlane

I'll keep you warm in December
Warm when the cold breezes blow
My arms so lovin'
A kind of oven
To melt the sleet and snow This heart that glows like an ember
Longs to be loved just by you
If it could be so
Then you'd keep me so
Warm in December too If it could be so
Then you'd keep me so
Warm in December
Oooh -- it's cool in December
Please keep me warm in
December too
