Goodnight, Goodbye

Trading Yesterday

You say, I think I am leavable
That he got drained, all the colors have gone
Oh, but you know right now youd do it again
'Cause I waited my whole lifeYou said, I made him so colorless
And that the air just got so cancerous
Deep in the right school play with the wrong scene
I guess it changes everythingSo were on time
To say goodnight
But we know that
It's a goodbyeYou said, She made him so colorless
And that the air just got so cancerous
I bet you know right now youd do it again
'Cause I waited my whole lifeSo we [Incomprehensible]
And say goodnight
But we know that
It means goodbyeYoure all that I have now
So dont never let me go
Youre all that I have now
So dont never let me goYoure all that I have now
So dont never let me go
Youre all that I have now
So dont never let me go
Youre all that I have now
