

# Wrong Way Out

Megan McCauley

Face down, Ill be 'til I dont know when  
But supposing now, you let me choose again  
Hands tied, I couldnt tell you where Ive been  
    Ill let the whole thing slide  
Think I could have stayed with youInstead I took the wrong way out  
    I didnt know wrong until now  
    I can only see what Im meant to see  
When it comes aroundInstead of breaking myself down  
    I took the wrong way out  
    I took the wrong way outFaint lines marking out another day  
    I can see that I just started panicking  
    In flight, couldnt think of what to say  
Now, I know that I, I should have tried anywayInstead I took the wrong way out  
    I didnt know wrong until now  
    I can only see what Im meant to see  
When it comes aroundInstead of breaking myself down  
    I took the wrong way out  
    I took the wrong way outI cant take another day  
    Living with the weight of knowing  
    That I put space between me and you  
    So, I'll wait for a break, for an opening  
You might let me get back throughInstead I took the wrong way out  
    I didnt know wrong until now  
    I can only see what Im meant to see  
When it comes aroundInstead of breaking myself down  
    I took the wrong way out  
    I took the wrong way outI know, I know, I know  
    Hey, I took the wrong way out  
    I know, I know, I know, I know, I know, I know  
I took the wrong way, I took the wrong way outHey, I took the wrong way out
