

# Speed Me Towards Death

[Rob Dougan](#)

Speed me towards death 'cause I just can't wait for her  
I want her to come, I want to embrace her  
I've decided it's life that I don't like  
That I don't likeSpeed me towards death 'cause I think she'd go for me  
They say, "Time is the cure", I can't wait, he's too slow for me  
I've tried all the rest now I want to try the best  
And I'd die for some company, I'd die for some companyI don't want to die slowly, I don't want to decay  
I want to be chosen, I want to be made  
I don't want to die lonely and weary of life  
I will not be earth bound, I'm goin' to flySo speed me towards death, you know I want her to taste me  
My senses are dead, I want her to awaken me  
I've realized that this world at its best  
Is just a prelude to the next and it's not what I wanna hear  
It's not what I wanna readI don't want to die slowly, I don't want to decay  
I want to be chosen, I want to be made  
I don't want to die lonely and weary of life  
I will not be earth bound, I'm gonna flyFor life is a game fit only for fools  
It's a horse that can't win  
In a race rigged to lose  
So speed me towards death
