When The Lights Go Out

[The Black Keys](#)

Don't it hurt so bad
Standin' in the sun
Bottom of your heart
You don't love no oneYou can be, oh, so mean
I just can't see, no in-between
You know what the sun's all about
When the lights go outWhat a way to live
Back of your class
End of the line
You're always lastYou can be, oh, so mean
I just can't see no in-between
You know what the sun's all about
When the lights go outSee the moon
See the stars
From your lonely seat
In your lonely carsYou can be, oh, so mean
I just can't see, no in-between
You know what the sun's all about
When the lights go outLights go out
Lights go out
Lights go out
