# Arsenal

## Dj Uve

naive little pieces of
what they tried to teach her
quiet and protected
slightly anorexic
(She Waits)
she's a time bomb, with her vibe on
she's gonna use it and surprise them
she's a time bomb, with her vibe on
they'll never know where she got her weapon.
they really don't believe her
she keeps it all a secret
found the Golden Muses
doesn't need to prove it
(She Waits)
she's a time bomb, with her vibe on

she's gonna use it and surprise them
she's a time bomb, with her vibe on
they'll never know where she got her weapon.
naive little pieces
she thought that they could see her
but soon the Desert Pigs will know
she's holding in an arsenal.
(She Waits)
she's a time bomb, with her vibe on
she's gonna use it and surprise them
she's a time bomb, with her vibe on
they'll never know where she got her weapon.
She Waits.
