For the Summer

Jacey Jasnoch

Hook:
You say that you don't know me,
but I think that you could learn to,
You could know me,
I could know you,
we could know each other
Only for the summer (x2)
Verse 1:
Song after song, I leave her kinda thinking
That this could be about her,But only when I'm singing
'Cause after this show, I'll be outta town
Drive tonight, then a flight, got no time to hang around
So I hit her with a text and said give me a call
She's thinkin I'm the one and I'm thinkin not at all
But maybe some summer love could relieve my stress
Because sometimes this life I love is way too intense
Picture message and face time, too busy but I make time
Rushing through my set list, just to check my phone line
Then I'm back in the city, no venue fans or singing
Said it might be love, but this is only for the weekend
Shopping on the street, her friends and I meet,
Then out to lunch at the dopest spot and it's all my treat
In tripping over my feet, could say I'm head over heals
But before we fall in love honey remember the deal
Hook:
You say that you don't know me,
but I think that you could learn to,
You could know me,
I could know you,
we could know each other
Only for the summer (x2)
Verse 2:
Thinking about a switch up, going back on my word
Why keep it on the low when she's so lovely for sure
Flickin through the pictures, realize I miss her
I said I'm fallin for you girl, she said remember the terms
And then I'm back on the road wishing I was still in her state
Small town girl, everything the city chicks ain't
I'm doin everything I can to take my mind off,

Even went as far as to click the face time off
But everywhere I go I feel that summer breeze
And that's enough to make me wish that she were here with me
Coming up in my conversations then again in my dreams
She inhabits my thoughts and her impression won't leave
So I call her, lose my words and don't know what to say
I talk about the weather, and she brings up the date
She said summer is almost over, our fling is almost gone
But your smile makes it feel like summer all year long
Hook:
You say that you don't know me,
but I think that you could learn to,
You could know me,
I could know you,
we could know each other
Only for the summer (x2)
