Half Man, Half Machine

Goldie Lookin Chain

Benatone Spectrum, Pacman, Commodore
ZX-81, Donkey Kong, fucking high score
Push it to the limit, couldn't push it any more
Wanna be a fucking robot after smoking loads of drawBought a speak and spell, stuck it to my chest
And wrap some fucking tinfoil to my head and to my vest
Walking down the street, my next door neighbors not impressed
I'm a robot and buying ten fags is my questEggsie's gone too far, he thinks he's Robocop
He's covered in tinfoil and he's got matching metal socks
We tried to sedate him but he fucking escaped
The man robot myth starts to escalateHe tries to sell himself standing in curries
But if the police turn up, he runs in a fucking hurry
He tries to plug himself in the mains with his nob
And when he's fully recharged he goes out on the robHalf man, half machine
What does it mean?
What does it mean?Half man, half machine
What does it mean?
What does it mean?Being a robot in my digital domain
Enter my world, feel my pain
I'm not like other people you might see or you might know
I made love to a BBC microTouching on the disk drive, the monitor got hot
I knew from then, I was a motherfucking robot
Bill Gates from Microsoft, Stephen Hawking's voice
And fucking Lara CroftI built a lab, secret in my loft
And built a special costume that would help me to jack off
I sat there in front of the screen
For many years, this had been my wet dreamNow I've reached it, I'm finally there
Like Terminator being filmed in Aberdare
So alone, when people stop and stare
Like C3PO but with pubes and hairRobot Love
Robot
Robotic break dancing
RobotThe doctors found a nut
They said he was an head case
'Cos he sticks silver and cans on his face
Sucking off antennas and trying to fuck the fridge
And burnt his pubic wig, with the high voltageI am a robot
My prime directive is to's go to's the shops
And buy's ten fags
Do's you's compute?He wants to buy ten fags, his destination is the shops

A tinfoil suit and a hat like Robocop
If your ask him then he'll do a body pop
Like Terminator, yeah he just won't stopPut electrical cable down through the eye of his cock
Plugged it in the wall and gave himself a big shock
The reason that he did it wasn't to give himself pain
Watching Terminator over again and againFuck man, get him, fucking restrain him man
Get him fucking, fucking get him down man
Inject him man, get him down
He's fucking nuts man and he's losing it
Help me man, just get him fuckingHalf man, half machine
What does it mean?
What does it mean?Half man, half machine
What does it mean?
What does it mean?Half man, half machine
What does it mean?
What does it mean?Half man, half machine
What does it mean?
What does it mean?
