English

-

Why why you leave me alone baby
Iâ€™m still still loving you
Youâ€™re leaving me right now
but I hope youâ€™ll be happy

You always had a habit of telling me
our looming farewell (the last)
I always had a habit of telling you
Iâ€™ll do anything to
protect you

(I wanna) Hold you tight
Make you mine
Never leave me alone
I only want you,
thatâ€™s all I need
Eventually everything fell apart
Why are you leaving me like this

Good luck baby
Good luck to you
You better be happy
if youâ€™re leaving me,
the one who only knew
and looked at you.
Good luck baby
Good luck to you
No matter who you meet
you better be as happy as
the amount of pain youâ€™ve left me with.

I hate you love you
Several times a day Up and down
Feels like an elevator
Heal me Iâ€™m heartsick
There ainâ€™t no cure for my disease
Iâ€™m worn, because of you
I canâ€™t uphold the immense pain youâ€™ve left me with
In this situation I find myself putting my hands
together for you. I pray for ya, Good luck to ya

(I wanna) Hold you tight
Make you mine

Never leave me alone
I only want you,
thatâ€™s all I need
Eventually everything fell apart
Why are you leaving me like this

Good luck baby
Good luck to you
You better be happy
if youâ€™re leaving me,
the one who only knew
and looked at you.
Good luck baby
Good luck to you
No matter who you meet
you better be as happy as
the amount of pain youâ€™ve left me with.

You have to be happier,
just remember this
no one will love you more than I did
I might be just one of your many farewells
but you will be my first and last.

Good luck baby
Good luck to you
You better be happy
if youâ€™re leaving me,
the one who only knew
and looked at you.
Good luck baby
Good luck to you
No matter who you meet
you better be as happy as
the amount of pain youâ€™ve left me with.
