

I Won't Stop

Will Downing

When I stop and think about your love
There's a joy in my heart and it's telling me I
Could never live a day without your love
And I know It's no lie girl
You are all of every reason
I could ever wanna live my baby
And it seems the more I learn from loving you
The more you wanna give
I could not express to you
What I feel deep in my heart
And I'm wanting you to know
That it's been like this
From the very start And I won't stop
Holding you close
I'm here to give love
Not letting go
No I won't stop
Till you have what you need
Right by your side
Hold on to me my baby There could never be another love
Do the things that you do
And you know that it's true
All the joy that I could ever hope to find
Is right here with you baby
Don't you know you make it easy
To give all of myself
I don't want no one else
And I'll always be here loving you
As I'm sure time will tell baby
I just wanna let you know
That I keep you close to my heart
Girl this love is nothing new
It's been like this from the very start And I won't stop
Holding you close
I'm here to give love
Not letting go
No I won't stop
Till you have what you need
Right by your side

Hold on to me me
And I won't stop
Being a friend
It's you that I need
From beginning to end
No I won't stop
There won't be a time
I'm here when you call
I've made up my mind
And I won't stop being a friend
It's you that I need
From beginning to end
No I won't stop
Till you have what you need
Right by your side
Hold on to me I just wanna be with you and you with me forever and ever and ever and ever
I just wanna be with you and you with me forever and ever and ever and ever
I just wanna be with you and you with me forever and ever and ever and ever
I just wanna be with you and you with me forever and ever and ever and ever No I won't stop
Loving you
No I won't stop
