

Watch the Wind Blow By

Tim McGraw

The creek goes ripplin' by
I been barefootin' all day with my baby
Brown leaves have started fallin'
 Leadin' the way
I like it best just like this
Doin' nothin' all the way
So let's lay down in the tall grass
 Dreamin' away[Chorus]
And all I want to do is let it be
And be with you and watch the wind blow by
And all I want to see is you and me
Go on forever like the clear blue sky
Slowly, there's only you and I
And all I want to do is watch the wind blow by
Girl, you know you told me not so long ago
To let it come, then let it pass
And all your troubles and your sorrows
 They won't last
So let me kiss you now little darlin'
Beneath this autumn moon
Cold winds, another season
Will be here soon[Chorus]
