

Loop in My Head

Bart Davenport

Give it up
Give it up
Give it up

Give it up
Looking forward to a time when things have changed
Many of us and the reason would feel the same
There's a loop in my head that just replays and replays
I've had enough x6 of feeling fucked up, deranged
I'm looking forward to a time when things have changed
Yeah
Any reasonable person would get our love dismay
An electrical storm came and set my mind ablaze
I've had enough x6, been full of and lost for days and days
Any reasonable person will get out of this maze
And I will change
An electrical storm came and set my mind ablaze
There's a loop in my head that just replays and replays
I've had enough x9
