Something More

Patti Labelle

We talk, it's always good
So much is already understood
We spend time, I like being with you
You're mine I wouldn't deny it's true
Even though I think you, dream about you
Want you so much
There's something you gotta know
I want something more
More than a dream
More than a wish
More than a vision
I'm lookin' for more
More than just words
More than a promise
More than a feeling
I want something more
It's got to be more
You said that you're taking your time
But I wonder
In the end will you be mine
You're sweet, I crave your touch
We make good love
But sometimes that's not enough
Even though you're good to me
And another woman would settle for less
There's something I must confess
I want something more
(More)
More than a dream
(More)
More than a wish
(More)
More than a vision
I'm lookin' for more
(More)
More than just words
(More)
More than a promise
(More)

More than a feeling, yeah
I want something more
It's got to be more
More than just a feel so good emotion
(I want something more)
Something I can count on in the midst of a storm
To bring back the sunshine again
I want something more
More than a dream
(More)
More than a wish
(More)
More than a vision
I'm lookin' for more
(More)
More than just words
(More)
More than a promise
(More)
More than a feeling
It's got to be more
I want something more
(I'm looking for more)
More than a dream
More than a wish
(I need so much more)
More than a vision
More than just words
(More)
More than a promise
More than a feeling
I want something to believe in, yeah
It's got to be more
