

# If I'm Lucky

Jason Derulo

Who are you to say, that I didn't love you?  
'Cause I didn't love the way you wanted  
And who am I to blame?  
When I didn't trust you enough to let you in the way I wanted  
Stop, okayVodka on my lips  
Took too many drinks  
Makes me reminisce all the way down  
To my happy place, you're my happy place  
I can't handle us now  
If I'm lucky I'll meet ya, flip side of the graveyard  
'Cause things didn't work out in this life, but someday  
If I'm lucky I'll met ya, head in the high water  
'Cause things didn't work out in this life, but maybe  
If I'm lucky, eh  
If I'm lucky, eh  
Get your loving  
'Cause things didn't work out in this life, but somedayWho am I to say, that it wasn't good, baby?  
Just thinkin' bout our loving give me chills up and down my spine  
I dare you not to miss me  
'Cause what we had was more than just a thrill  
Stop, okayVodka on my lips  
Took too many drinks  
Makes me reminisce all the way down  
To my happy place, you're my happy place  
I can't handle us now  
If I'm lucky I'll meet ya, flip side of the graveyard  
'Cause things didn't work out in this life, but someday  
If I'm lucky I'll met ya, head in the high water  
'Cause things didn't work out in this life, but maybe  
If I'm lucky  
If I'm lucky (if I'm lucky)  
Get your love in sweet safe, 'cause I really miss it babe  
'Cause things didn't work out in this life, but somedayI'm selfish for you  
I'm selfish for youIf I'm lucky I'll meet ya, on the flip side of the graveyard  
'Cause things didn't work out in this life, but someday  
If I'm lucky I'll met ya, head in the high water  
'Cause things didn't work out in this life, but maybe  
If I'm lucky (if I'm lucky, baby)  
If I'm lucky (if I'm lucky, baby)

I'll get your love in  
'Cause things didn't work out in this life, but someday I'm selfish for you  
I'm selfish for you  
And only you, baby
