Hajimemashite

Coprolite

I didn't know things were supposed to be this way
I wasn't told of this before
But had I known about this fall for some time
Maybe I could've been or could've known
I once was dropped among this crowdI didn't know things were supposed to be this way
I wasn't told of this before, it's all right
Was all I heard, it will blow away, away
When it's faded from my mind
Gone, without this time, it's fading fast
