

# Lines

## Dead Letter Circus

Take away these lines  
This world beats all around me but nothing here feeds to satisfy  
So I've grown this face  
Perfect in disguise so you don't know what I feel each moment I don't fit here  
I feel I don't fit anywhere I feel like I'm lost in this game so... Take away these lines  
It's making no sense to me  
But we don't care  
Let's see if I can change  
And break these lines  
It's makin no sense to me  
But we don't care  
I'll see if I can change  
Make your own mistakes  
If it hurts then you're alive and means something's there  
You feel it deep inside that this is all a game  
Make your first move and decide to be conscious and god of each moment I don't fit here  
I feel I don't fit anywhere I feel like I'm lost in this game so... Take away these lines  
It's making no sense to me  
But we don't care  
I'll see if I can change  
And break these lines  
It's makin no sense to me  
But we don't care  
Let's see if I...  
Gonna see if I can change  
We all wanna feel something  
But we don't want to change  
This life is our only life  
None of this remains  
But you own your history  
You own it just like me  
Friend I wanna know I was alive Take away these lines  
You're making no sense to me  
But we don't care  
Let's see if I can change  
And break these lines  
You make no sense to me  
But we don't care  
Let's see If I... I want to feel something here

I want to feel something more  
But I don't wanna changeFaster than I used to feel  
So faster than I ever dreamed
