

I'll Find Your Heart

Sam Concepcion

No matter where you are
You'll be my star
I'll follow you around the world
No matter where you are
I'll find your heart my baby
And never let you go
Forever and ever When we are together
The moments are treasured
Wish they'll never pass away
I wanna remember
Your lovin' me tender
And that mem'ries always stay Thinking 'bout all the love we shared
I promise you I'd aways be there No matter where you are
You'll be my star
I'll follow you around the world
No matter where you are
I'll find your heart my baby
And never let you go
Forever and ever When summer comes nearer
When days become warmer
Wanna spend that time with you
When rainy days come
The colder it gets, yeah
We'll be cloder than close too Thinking 'bout all the love we shared
I promise you I'd aways be there No matter where you are
You'll be my star
I'll follow you around the world
No matter where you are
I'll find your heart my baby
And never let you go
Forever and ever You'll be my star
I'll follow you around the world
I'll find your heart my baby
And never let you go
Forever and ever We will be together
Ever and forever
You will always stay in my heart
I will never leave
I promise that I'll need you

Nothing's gonna tear us apart
Gotta tell you that my love is true
Baby all I want is you
