You (remix)

Lloyd

[Andre 3000:]I said, "what time you get off?"
She said, "when you get me off"
I kinda laughed but it turned into a cough
Because I swallowed down the wrong pipe
Whatever that mean, you know old people say it so it sounds right
So I'm standing there embarassed, if we were both in pairs
I would have grabbed her by the waist and kissed her, but
We in the middle of whole foods, and those foods
Ain't supposed to beef, but you'd think I hate tofu
Check-in line got rowdy, my vision got cloudy
I started seeing some circles like some audi
Emblem, I'm hearing them say, come on man
Do this own your own time, get the hell on, man
I walked out, hm, I got bout
Half-way to my car when I heard shorty shout
"3000, forgot your credit card, smart move
By the way, my little sister loves your cartoon"
Well, here's my name and numb
If I ain't the one, lose it, if I am, use it
If a man chooses, and he can, do's it
And he don't, don't take it personal, he might be might be swamped
With making mozarella - no, making laws bettter
Cheese will come, believe me, I'm, never focussed on the cash
Ask Mel Gibson, Jesus Christ, I'm bout the pass... ion
[Lloyd:]Stop, baby bring that thang back
You know where my heart at
Shawty, sho ya boi some love (love)
Cause I'm about to lose it
With the way you move it
makes me wanna get to (yea)
Girl tell me what it do (do)
I'll change the game for you (you)
I'm a player, yes it's true, but...
[Chorus:]Can I be for real?
This is how I feel
I'm in need of love
So let's dip up out of here
Oooh, ya just my type
Everything so right

[Nas:]Yeah, Nas be in the crib low, strip polin it
Cold guinness, bitter taste, slim waist, I'm gon hit it
We low-key baby, like a baritone
Apple computer, e-mail me to come scoop ya
Run through ya, undo ya bra, gimme medulla, uh
Ya cute as a movie star, in sin city, hennessey, my love slave
Lovin is pimpin, no rest have, with none of 'em
I would leave every one of em, you just say it
Just leave it where it is, he ain't aware of sleep and dogs lie
But keep a sharp eye on him, cause I'm the wrong guy
To wanna put this four-five on em, let's get it on, ma
You got my nose wide open
You already locked down and rot down, but so delicious

If he get suspicious, bring up his old mistress
I ain't dry-snitchin, but why should you be feelin bad
Cause I be killin that, huh?
[Chorus:]Can I be for real?
This is how I feel (How i feel)
I'm in need of love
So let's dip up out of here
Oooh, you just my type
Everything so right (so right)
And I just wanna chill
So let's dip up out of here
Let's dip up out of here...
[Bridge:]Ahh, ahh, ahh-ahhh, ahhhh... (shawty i,shawty i want chu)
She's fine too, but I want you...
Ahh, ahh, ahh-ahhh, ahhhh...
She's fine too, but I want you...
