

# Be There

[Sara Watkins](#)

You needed me I was gone  
For too long I couldnt be found  
And youre tired now I should be there I know  
I should help you bear the load  
Youre tired of living alone  
And Im sorry But we can still win this  
Were still in the game  
Dont leave me hanging  
Dont hang up the phone  
Please be there when I get old Have the will to try  
And find the strength for one more climb  
Its been a hard time But we can still win this  
Were still in the game  
Dont leave me hanging  
Dont hang up the phone  
Please be there when I get old But we can still win this  
Were still in the game  
Dont leave me hanging  
Dont hang up the phone  
Please be there when I get old
