Left Hand

Norbert Kristof

It was typical of you
To give it to me plain
The sign on your door
Said make your mind up or go away
It was difficult for me
To single you out
Left hand
Wants to know what the right is doing
Tell the way we miss out on something
We're free
But there is one thing when I present
It was typical of you
To feather your nest
I try to explain
But me and my big mouth were laid to rest

There's nowhere to go
I'm not hanging around
Left hand
You pick me up and then you put me down, yeah
Put me down
Left hand
Wants to know what the right is doing
Tell the way we miss out on something
We're free
There is one thing when I present, no
Left hand, hand
Left hand, hand
Wants to know what the right is doing
