

# Away Absent

## Obsidian Kingdom

A new job in a new town  
Your favorite fix to get you through the day  
Wild flesh on a big screen  
Wolfing down lies, junk and aspartameBright noise  
To silence what you say  
Transcendence and video game rewards  
Dazzling drugs to cast the clouds awaySo what do you know about sex and death?  
Nothing  
NothingTake me away from here  
Give me something to escape  
Drain me  
Waste me  
Numb me  
Take my everythingToday I leave it all behind  
I feel so light  
I feel so lightMy burden swallowed by the tide  
I feel so light  
I feel aliveAnd I am never coming back
