Jonathan

Fiona Apple

Jonathan, call again
Take me to Coney Island
Take me on the train
Kiss me while I calculate
And calibrate, and Heaven's sakes
Don't make me explain
Just tolerate my little fist tugging on your forest chest
I don't wanna talk about, I don't wanna talk about anything
I don't wanna talk about, I don't wanna talk about anything
Jonathan anything or anyone you have done
Has gotta be alright with me
If she's part of the reason you are how you are
She's alright with me
Just tolerate my little fist tugging on your forest chest
I don't wanna talk about, I don't wanna talk about anything

I don't wanna talk about, I don't wanna talk about anything
You like to captain
A capsized ship
But I like watching you live
You like to captain
A capsized ship
But I like watching you live
Jonathan, call again
Take me to Coney Island
Take me on the train
Kiss me while I calculate
And calibrate, and Heaven's sakes
Don't make me explain
Just tolerate my little fist tugging on your forest chest
I don't wanna talk about, I don't wanna talk about anything
I don't wanna talk about, I don't wanna talk about anything
