

# Wide Awake

## Milk Inc.

I'm wide awake  
It's time to make it on my own  
Wide awake  
The dream is over  
I'm wide awake  
It's time to make it on my own  
Time to find my way back home  
The dream is over  
I'm wide awake

There's no story left to tell  
No answers left to find  
There's no use in looking back at what's been left behind  
No more dancing in the dark  
No promise left to break  
The road ahead is waiting for the steps that I should take

I'm wide awake  
It's time to make it on my own  
Wide Awake  
The dream is over  
I'm wide awake  
It's time to make it on my own  
Time to find my way back home  
The dream is over  
I'm Wide Awake

There's no letter left to write  
No captains left to Kirk  
There's no use in going back to what would never work  
No more dancing in the rain  
No promise left to break  
The road ahead is waiting for the steps that I should take

I'm wide awake  
It's time to make it on my own  
Wide Awake  
The dream is over  
I'm wide awake  
It's time to make it on my own

Time to find my way back home

The dream is over

I'm Wide Awake
