World Without End

Bodycode

Perpetual light
Eternal rest
Grant unto her
Her soul be blessedAnd her faithful heart
With all pain, departLighter than air
Safer in your arms
Borne on the breeze
Welcome in your armsWorld without endBe there no doubt
Be there no fear
Within your love
Our one glad heartOffered up to you
Our precious soul for youHow sweet the refrain
Safer in your arms
Hold us again
Welcome in your armsWorld without endMay we remain
Ever in your guard
Home again
Safely in your armsWorld without end
Without end
