

World Without End

Bodycode

Perpetual light
Eternal rest
Grant unto her
Her soul be blessed
And her faithful heart
With all pain, depart
Lighter than air
Safer in your arms
Borne on the breeze
Welcome in your arms
World without end
Be there no doubt
Be there no fear
Within your love
Our one glad heart
Offered up to you
Our precious soul for you
How sweet the refrain
Safer in your arms
Hold us again
Welcome in your arms
World without end
May we remain
Ever in your guard
Home again
Safely in your arms
World without end
Without end
