

Vegas Girl

Conor Maynard

Bad girl, I think you wanna play
See you looking so good with ya poker face
Bottles up like it's your birthday
VIP, everyone, this place
I'll knock you down like you're Keri
Forget your name like Rihanna
You can run the world, Queen B
Be unthinkable, Alicia
We can go so far if she let go
And I ain't gonna leave without her

[Chorus:]

This is for the girl that get down low
The whole club wanna see you go
Ey, shake, shake like you're famous, girl
Head back, lay it down like a vegas girl
Bass coming down so hard
That little dress breaking every heart
Ey, shake, shake like you're famous, girl
Head back, lay it down like a vegas girl

Like a vegas girl

Roll the dice, I've got your number
Hit the jackpot underneath the cover
Intoxicated, you're like a drug, girl
Grab a glass, girl rain tequila
I'll knock you down like you're Keri
Forget your name like Rihanna

You can run the world, Queen B
Be unthinkable, Alicia
We can go so far if she let go
And I ain't gonna leave without her

[Chorus:]

This is for the girl that get down low
The whole club wanna see you go
Ey, shake, shake like you're famous, girl
Head back, lay it down like a vegas girl

Bass coming down so hard
That little dress breaking every heart
Ey, shake, shake like you're famous, girl
Head back, lay it down like a vegas girl

Like a vegas girl

It feels so right every night
Like you're in vegas, girl
(Like a vegas girl) in vegas, girl x4

[Chorus:]

This is for the girl that get down low
The whole club wanna see you go
Ey, shake, shake like you're famous, girl
Head back, lay it down like a vegas girl
Bass coming down so hard
That little dress breaking every heart
Ey, shake, shake like you're famous, girl
Head back, lay it down like a vegas girl
