

# Talk

## Big Deal

I went and lost my keys again,  
so you let me sleep inside your bed,  
i know it's hard to find a friend,  
but you knew you hadn't let the right one in, It's okay...i'm just a kid,  
it's okay...i'll get over it. All i wanna do is talk,  
but seeing you fucks me up,  
all i wanna do is talk,  
but seeing you fucks me up, All i wanna do is talk  
all i wanna do is talk  
all i wanna do is talk  
all i wanna do is talk Her flat morning  
your arms holding  
without warning  
cold wind coming I don't wanna hear about her  
I don't wanna hear about her  
I don't wanna hear about her  
I don't wanna hear about her All i wanna do is talk  
all i wanna do is talk  
all i wanna do is talk  
all i wanna do is talk All i wanna do is talk,  
but seeing you fucks me up,  
all i wanna do is talk,  
but seeing you fucks me up, All i wanna do is talk  
all i wanna do is talk  
all i wanna do is talk  
all i wanna do is talk
