

Mean It In the Morning

[Loyle Carner](#)

Only say it if you'll mean it in the morning
To me it seems a little more important
To see if she be breezy eith that easiness of thought
Before we get all caught up in the calling
But the way that I was falling back in '09
Fidget but feeling it was go time
Sitting with my missus didn't show signs
Lines that were mine, kissing on that cold spine
