

Ladylike

Storm Large

I'm sorry about your girl
Li'l center of the universe
Axis turns the world
And you need a jet to get to her
And all the ways she moves attracts all kinds of focus
From all over the room
She smokes -
Not ladylike.
She's not ladylike.

Mr. Blister big and tall you take the world and spin it
you don't fuck around at all no you're in it to win it
and then you can get the girl
And then you gon' make some more
so you can win the girl 'cause baby that what you been workin' for

Shes big and shes proud
and she knows
what the world is about

What the what is ladylike
if ladies like
to do what the what they like
just like you
yeah, just like you
look out man here comes another one (x2)

Well I'm so sorry 'bout your wife
she's up and off and running
going on with her own life
word to your mother - she's stunning
and there's a part of you
that's just a little scared of her
axis turns the world and
you need a jet to get to her
she's great and she knows
how to wear the pants
and the rest of your clothes

Chorus: (2x)

What the what is ladylike
if ladies like
to do what the what they like
just like you
yeah, just like you
look out man here comes another one

on my knees
or on all fours
from underneath
hear me roar

Chorus:4x

Yeah yeah
