Time Is Too Expensive

Del the Funky Homosapien

Time is too expensive
Time is too expensive
Time is too expensive
Time is too expensiveToo expensive, it's too expensive
Too expensive, you know what?
Time is of the essence
Too expensive, too expensiveYou know what yo? Time is of the essence
Whacha say, whacha say, whacha say now?
Whacha say, whacha say now?
You know what? Time is of the essenceMy vast knowledge of rhyme is past college
Blast, demolish, polish off all enemies
I can't fall in this rap game, I got acrophobia
Plus half these rappers out here are fuckin' dead like necrophiliaYou know the thing, chocolate like Ovaltine
Comin' down on the mic like eggs from ovaries
Monarchal metaphor, malevolent with settlements
Maniacal when Hiero flow, unstoppable and chock fullOf funk the freak, so fuck the foreplay
Del has been ordained to terrorize your brain
The diagnosis, the show business bogus
My lyrics lash out, like I was throwin' stones in a glass houseRappers pass out, ass out
And anyone left on the scene who has doubts
Y'all fools ain't got no nuts, I'm doin' donuts
Slow up whoever show up, I'm too robust, so what?I'm invincible invisible lyrics
Original origin unknown from here on in
Uncommon dominating hip hop
Permeating every portal with mortalsMore flows heaven scent, microphone etiquette
And lyrics up for your goblin and kill the novice
I write bad subjects like the Hobbit
And on to the next phase before you try to rob itYou know, D E L, yeahTime is too expensive
Time is too expensive
It's too expensive, it's too expensive
It's too expensive, you know what?Time is of the essence
Whacha say, whacha say, whacha say now?
Whacha say, whacha say now?
You know what? Time is of the essenceSupreme MC's reach out when I'm on top
Catch altitude sickness not to use fitness
In front of witnesses get with this fetch the funk
While I test the skunk, see I will caress the bluntCome step through the flames of Hades or remain a lady
Rhymes infectious as rabies, Deltron, hell on earth
Prevailing, curtailing, you're shattered with data

Directed, my method, hectic, try and dissect itNext shit, hydrauling we're calling you out, I rap with accuracy
I'm sick of fools actin' like they blacker than me
Y' know, usually bourgeois
We a new breed of MC remedyFor inner street jerks who wanna flirt with our sound
But ain't really down, silly clowns
Barnum and Bailey rejects
Press eject on defectsThese threats delivered signed and sealed by the Delmeister
German for master, burnin' the blasphemous
Whatever you ask of us gets fulfilled, non-linear
You couldn't find a flow friendlier or even similarWith beats that knock, those who cock block
Transport 'em to the chop shop
Operation X 'cause we often facin' death
And fake ass players are lost and wastin' breathTime is too expensive
Too expensive
It's too expensive, so expensive
Time is of the essenceLyrical master, turnin' mic sessions to disaster areas
I'll wax your derriere
Disable MC's with fatal degrees and flows
Flamboyant flamin' fools like mesquite, let's eatThese barbecues are for you
Were are the few, the proud, the Hieroglyphics
Microphone moguls with code words and hand signals
For Negros, Spanish for blackI'll vanish your raps, at the borderline
Where you can order rhymes
Never monochromatic, y'all know the habits of Del
Talented, creating lyrical GallaghersHighest caliber, hip hop puritan, throw my voice like Surrican
Or ventriloquists, until it sit in your cerebrum, I need them
Through the medium of music, too sick
The ratio is glacier, GigantorMy flow is lighter fluid, you'll need a higher druid
Magicians and Mages, superb my primal rage is
My styles all over the place, disease contagious
And treacherous, what? Like Mussolini, uh, huhBut cooler than Fonzarelli eating fussilli
With roots in hip-hop goin' back to Whodini
Who see me, no eyes, your style is corny like bow ties
No fries, keep that shake for a keep sakeAs well as patented Del hysteria
Malaria area, 88 bait for bitin' MC's
They're bitin' to see, see that's like a likin' disease
My time is up, I take my mic and I leave, ha ha
