

# Download

## Yes, Robot

Shawty, I been lookin' at these pictures of you cyber surfin'  
So when you gonna call me? When you gonna come through?  
All I wanna do is download, when you gonna let me download?  
Shawty up, shawty down low, when you gonna let me download?

I'm on Myspace and it's type late  
My baby got me number one on his top eight  
It's computer love, we don't mind to hate  
They just MySpace freaks tryna find a date  
We up all night havin' cybersex  
He chat, I chat though we never met  
He said he wanna explore me like the Internet  
It's like an orgasm every time he sent a text  
He wanna download, he likes to download  
Little Kim songs and put 'em on his ringtone  
He even got my screen saver on his iPhone  
I get more hits than a T inzone  
We goin' back and forth, sendin' emails  
He a thug so I hit 'em on his Gmail  
His sense of humor got me writin' LOL  
I sent pictures of myself straight to the cell

Shawty, I been lookin' at these pictures of you cyber surfin'  
So when you gonna call me? When you gonna come through?  
All I wanna do is download, when you gonna let me download?  
Shawty up, shawty down low, when you gonna let me download?

He been lookin' at my sexy pics, said he diggin' my sexy hips  
He wanna kiss my sexy lips and download me on his floppy disk  
Little Kim is the only one on his mind  
He wanna come through and put me on his hard drive  
Three o'clock in the morning we be online  
Others send friend requests but they get denied  
He type I miss you  
I type back to let him know the feeling's mutual  
It's just Myspace love but it's beautiful

He love to watch my videos on YouTube  
Hey, it's like everytime I log on I get so turned on  
Computer love playin' in the back  
The only one that have me up all night long  
Feel like a fantasy, the chemistry is so strong

Shawty, I been lookin' at these pictures of you cyber surfen'  
So when you gonna call me? When you gonna come through?  
All I wanna do is download, when you gonna let me download?  
Shawty up, shawty down low, when you gonna let me download?

Yeah, I've been lookin' at these pictures of you  
And when I see you up close and personal so I can touch you  
Ain't nuttin', I don't like you as an insomniac  
I'm here now, grab me where my heart dropped at  
I meant what I said when I typed that  
Lil' mama scream my name if you like that  
Ain't nothin' like computer love

Shawty, I been lookin' at these pictures of you cyber surfen'  
So when you gonna call me? When you gonna come through?  
All I wanna do is download, when you gonna let me download?  
Shawty up, shawty down low, when you gonna let me download?

Computer love, it's waitin' for you  
Tell me what you want me to  
Computer love, it's waitin' for you  
Tell me what you want me to

Shawty, I been lookin' at these pictures of you cyber surfen'  
So when you gonna call me? When you gonna come through?  
All I wanna do is download, when you gonna let me download?  
Shawty up, shawty down low, when you gonna let me download?

Computer love, it's waitin' for you  
Tell me what you want me to  
Computer love, it's waitin' for you  
Tell me what you want me to
