

# Young and Beautiful

## Kenny Feidler

I could see you standing there at the car  
Surrounded by all of your friends  
Now you're just a distant star  
Burning high and fast down in the wind

People walk around this town  
A tear or two tucked in their sleeve  
Cause they laid into the ground  
Another chance of hope and dream

Oh it eats me up inside  
All the times they never got  
Lord it breaks my heart tonight  
When the young and beautiful, they die  
Before they ever got their shot

Carry you with me where I go  
Guess it's only selfish ways  
Everyone round here, they know  
Something missin in their days

Oh it eats me up inside  
All the times they never got  
Lord it breaks my heart tonight  
When the young and beautiful, they die  
Before they ever got their shot
